

STOKESAY
PRIMARY
SCHOOL

EYFS - Intent, Implementation and Outcomes.

I can. (Intent.)

At Stokesay Primary we believe that all children deserve an education rich in wonder and memorable experiences that allows the children's natural creativity and curiosity to flourish, alongside the purposeful acquisition of skills and knowledge. We believe that an education that does all of this gives children the best chance to become well-rounded, happy individuals, ready to succeed in an ever-changing world.

At Stokesay we have 4 clear aims for our children, we want our children to be.

- Ready to learn: Children have a positive, confident attitude to learning. They are both physically and emotionally ready to learn.
- Resourceful: Children show initiative, ask well thought out questions and are prepared to use a variety of strategies to learn.
- Reflective: Children are curious, able, and willing to learn from their mistakes and can describe their progress
- Resilient: Children are prepared to persevere and stay involved in their learning, even when the process is challenging

The curriculum in Early Years is designed to provide a broad and balanced education that meets the needs of all pupils. It facilitates them to gain the skills, knowledge and understanding, as they start out on their educational journey, supporting them to

We can. (Implementation.)

At Stokesay, we offer a curriculum which is broad and balanced, and which builds on the knowledge, understanding and skills of all children, whatever their starting points. We follow the Early Years curriculum using topic themes and enrichment opportunities. The aim of our curriculum is to develop a 'thirst and love for learning' and 'Awe and Wonder' memories by:

- Carefully planning sequences of activities that provide meaningful learning experiences, developing each child's Characteristics of Effective Learning, whilst promoting 'self-discovery' for our pupils.
- Providing activity starting points for child-initiated activities that enhance children's learning and impact on progress.
- Developing an effective and engaging environment that is rich in language whilst taking into consideration the need for the children to be able to access all areas of learning, both inside and outside at any one time.
- Providing high quality interactions with adults that demonstrate and impact on the progress of all children.
- Ensuring that 'The Unique Child' is at the forefront of adult's interactions and adopting a nurturing approach for those pupils who might need some reassurance to enable them to succeed.
- Using high quality questioning and interactions to check understanding and address misconceptions.
- Staff acting as role models to the children in order for children to develop their own speaking and listening skills.
- Carefully assessing, through observations, which are recorded on Tapestry and shared with parents. These are used to inform

Stokesay can. (Outcomes.)

From their own starting points, children will make excellent progress academically and socially, developing a sense of themselves so that they are well prepared for the transition into Key Stage 1.

Children will demonstrate high levels of engagement in activities, developing their speaking and listening skills, enabling them to access more areas of the learning and communicate to both adults and children. Children will develop skills across all areas of the curriculum including literacy, mathematics and physical development using these in different ways. Children will have developed a wider sense of the world around them and can draw on these experiences during interactions with others and link this to new learning.

Children will have developed their Characteristics of Effective Teaching and Learning and be able to apply their knowledge to a range of situations making links and explaining their ideas and understanding. Children will be confident to take risks and discuss their successes and failures with adults drawing on their experiences to improve or adjust what they are doing. Children will be successful learners and fully prepared for the next stage of their education as they transition from EYFS to Year One. We will also aim to help children to make sense of the world around them, to develop tolerance, compassion and an understanding of their rights and the rights of others in an ever-evolving world. Children at the end of Foundation stage will have developed

progress from their individual starting points and preparing them for the next stage of their education. Our ethos in Early Years is to support children's personal, social and emotional development so that they feel safe and secure and are ready to learn. Through the seven areas of learning we have half termly topics that excite and engage children, building on own interests and developing their experiences of the world around them. We recognise that all children come into our setting with varied experiences and all staff work hard to ensure that the learning opportunities provided widen their knowledge and understanding of the world, by setting ambitious expectations for all children. The curriculum celebrates diversity and supports the pupils' spiritual, moral, social and cultural development. Those children with particular needs, including SEND, are supported appropriately allowing them to be successful during their time at Stokesay Primary.

parents of learning and sharing of experiences the children have.

- Allowing children to be successful in their attempts at an activity and using effective feedback to help facilitate next steps in learning but providing enough challenge to develop resilience.
- Suggesting home learning opportunities via Tapestry with information about what has been taught, allowing parents to build on their child's school experiences, at home.

We recognise the changing needs and interests of our pupils and we are responsive to this, regularly developing existing topics. Literacy and phonics opportunities are promoted in many of the continuous provision activities available to children during the week whilst also having an adult focused activity, sharing stories and daily Phonics. The Early Years uses core texts as a basis for topic planning and usually start with an exciting book to engage children. Books have been chosen with a view to promote reading for pleasure. Phonics is taught daily using Twinkl Phonics and Bug Club through differentiated phonic groups. Phonic sounds are introduced in a systematic manner and progress is monitored with children moving on to read books from the scheme and others of their own choice. The sessions are delivered in an engaging way and activities are revisited to embed over the year. The maths curriculum is taught through dedicated sessions. These sessions are carefully planned using concrete resources and build on prior learning and real-life experiences across the theme and year. We want our children to become confident mathematicians who can apply what they have learnt to real life experiences. Weekly Outdoor Learning sessions are run for children in Early Years; these support a range of skills and develop their social interactions. All seven areas of learning are encompassed within these sessions and allow all children to take risks in an unpredictable environment whilst developing leadership skills and promoting mental health and wellbeing. We have a dedicated space to run these sessions.

essential knowledge and skills required for everyday life and lifelong learning. Children at Stokesay will be well rounded, happy, inquisitive and successful make sense of the world around them, to develop tolerance, compassion and an understanding of their rights and the rights of others in an ever-evolving world. Children at the end of Foundation stage will have developed essential knowledge and skills required for everyday life and lifelong learning
